

ENCINA

Holm Oak Charcoal from Southern Spain

100% Quercus ilex · dehesa maintenance wood · 7–10 day carbonisation · EU origin

80%**fixed carbon**

EN 1860-2 min.: 75%

< 5%**moisture**

EN 1860-2 max.: 8%

35 mm+**lump size**

screened, XL grade

80 t**per month**

available year-round

WHY ENCINA

- **The benchmark of Spanish gastronomy**
Standard charcoal in Jospers and asador kitchens. Long, stable embers, hardly any sparks, neutral smoke.
- **Quality on par with quebracho**
Dense hardwood, over 80% fixed carbon – without ocean freight or dollar risk.
- **EUDR solved**
EU origin, low deforestation risk. Due diligence statement with every load from 2027.
- **Honest origin**
Maintenance wood from the dehesa – pruning instead of clearing. A story your trade customers can tell.

LAB ANALYSIS

PARAMETER	RESULT	EN 1860-2
Fixed carbon	80.15%	min. 75%
Ash	5.89%	max. 8%
Moisture	4.86%	max. 8%
Sulphur	0.00%	–
Benzo(a)pyrene	0.06 mg/kg	–

Universidad de Extremadura, 2026 · PAH tested

BIG BAG**approx. 700 kg**

for packers

15 KG SACK**palletised**

on request instead of big bag

TRUCK**approx. 5 days**

no container, no sea freight

AVAILABLE**year-round**

part & full loads
